# Leonel Gauna

## Full-Stack Developer

Buenos Aires, Argentina | leonel.mariano.g@gmail.com | LinkedIn | GitHub | Website

## SUMMARY

Full-stack developer with 4+ years of experience building web applications, including 3 years as Tech Lead overseeing up to five concurrent projects for international clients. Experienced in code review, technical planning, cloud infrastructure, and deployment pipelines.

## PROFESSIONAL EXPERIENCE

**BiggerTech** — Tech Lead | August 2022 – August 2025

- Supervised technical work across up to five concurrent client projects.
- Planned technical implementation during sprints and helped developers resolve blockers through guidance and troubleshooting.
- Reviewed pull requests and maintained code quality across client projects.
- Set up and maintained cloud infrastructure and automated deployment pipelines, including application hosting, databases, supporting services, and cost monitoring.
- Set up initial project codebases and contributed to feature development, integrations, and bug fixes when needed.
- Presented technical work in client demos and conducted candidate interviews.

**Freelance** — Web Developer | 2021 – 2022

- Developed full-stack web applications with React and NestJS.
- Set up cloud infrastructure and deployed applications to production.
- Collaborated with a small team to translate client requirements into working features.

## PROJECTS

**We Make Footballers** · Youth football academy network with 120+ academies worldwide *(BiggerTech)*
Led the team through an infrastructure migration and supported ongoing feature development, maintenance, and resolution of user-facing issues.

**Zenn** · Logo and brand-kit generator for small businesses *(BiggerTech)*
Led the team through a codebase migration, built the cloud infrastructure supporting image generation, and supported ongoing feature development, maintenance, and resolution of user-facing issues.

**Cricconnect** · Cricket community platform connecting fans, clubs, and sponsors *(BiggerTech)*
Led the team in developing a location-based sponsorship and advertising system designed to create a new revenue stream for the platform.

**Tap4change** · Donation platform where brands reward donors with perks *(BiggerTech)*
Led the team in building the platform from scratch and delivering its initial iterations.

**Poulz** · Live-streaming platform for paid events with bookable seats (original version) *(BiggerTech)*
Led the team in building the platform from scratch and delivering its initial iterations.

**R/Argentina Programa** · Learning platform for a free full-stack course, from zero to junior level *(Freelance)*
Collaborated with the team to build the platform from scratch and deploy it to production, including video lessons, assignments, and instructor reviews.

## TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP
- **Frontend:** React, Vue, CSS
- **Backend:** NestJS, Laravel
- **Databases:** MySQL, PostgreSQL
- **Testing:** Jest, Supertest, Playwright, Testing Library
- **Cloud:** AWS (EC2, ECS, Lambda, App Runner, Amplify, RDS, S3, CloudFront, SQS, SNS, SES, Secrets Manager), Azure, Oracle Cloud Infrastructure (OCI)
- **DevOps:** Docker, Docker Compose, Podman, Terraform, Ansible
- **CI/CD:** GitHub Actions, AWS CodePipeline
- **AI Tools:** Claude, Codex

## EDUCATION

**Universidad Tecnológica Nacional** | 2015 – 2019

Studies in Electronics Engineering

## LANGUAGES

- **Spanish:** Native
- **English:** Proficient
